ABSTRACT

A Barzebo according to the present disclosure is a portable shelter, gazebo or pavilion having an integrated service bar joining two or more adjacent support panels. A Barzebo according to the present disclosure is configured with the server area of the service bar and the patron area of the service bar within the envelope of the shelter and the patron area is congruent with the optimal benefit area of the shelter. The service bar integrated with the shelter structure improves the structural stability of the shelter in two axes. It is emphasized that this abstract is provided to comply with the rules requiring an abstract which will allow a searcher or other reader to quickly ascertain the subject matter of the technical disclosure. It is submitted with the understanding that it will not be used to interpret or limit the scope or meaning of the claims.
